

Distribution and Posting of Materials

District policy allows distribution of materials of parent and student organizations sponsored by the District or other governmental agencies. The District also may allow distribution of materials that provide information valued or needed by the District.

The Board Designee must approve all materials before they may be distributed by any organization.

To facilitate the distribution of materials with information about student activities, each school may maintain a centrally located bulletin board for the posting of materials, and/or maintain a table available to students for placing approved materials.
